

CHAPUNG SEBALI

As an eclectic boutique resort, Chapung Sebali eloquently fuses traditional Indonesian architecture with a contemporary Scandinavian styling.

Its modern layout reveals a unique understated design, composed with abstract paintings, designer furniture and carefully selected materials, such as reclaimed ironwood, black marble, red brickwork, and large floor to ceiling glass paneling inviting the sunlight to enter.

The natural beauty of its earthy tones, finely finished materials and furniture combine to highlight our elegant taste in design, seamlessly complementing the jungle of Ubud. It is a mystical place that brings together unparalleled comfort and an outstanding level of service in a natural environment for our top-tier suites and villas.

Overlooking the Wos River Valley with its dramatic views of Ubud's luscious jungle, Chapung Sebali sits among the wilderness and rice fields. It is only ten minutes north of central Ubud and a 90-minute drive from the airport.
